I think you're right cause I also googled Truman Corp and didn't see any...

Thanks.

Lorenzo

Lorenzo:

I'm thinking, and Steve agrees, that the reference to Trumann Corp should actually be Grumman Corp.

Does this make sense?

Thanks
Jason

Lorenzo:

Thanks for forwarding this email. I will check with Steve Scharf on the possible linkage between the Bethpage Community Park and Trumann Corp. I have never heard of this connection.

Sorry for the delayed reponse on this. I was out of the office since 3/29.

Thanks and call if you want to discuss.

Jason

Good Morning, Jason,

I am forwarding to you my current email communication with a person who's inquiring about NWIRP-NG. Do you know anything about his allegation about the Trumann Corp. as to "a public park" which I assume is the Bethpage Community Park.

Thanks, Jason.

Lorenzo

Sir,

Is the Trumann Corp. going to be held responsible polluted ground water, and the affiliated sicknesses and deaths in the surrounding community?

There is certainly much to be said about the ethics and decision making of deliberately "donating" property that was used as a toxic waste dump for a public park. The decision was made with more than a modicum of arrogance concerning the effects that the polluted ground water would have on the health of the children growing up there, and the executives that made these decisions should be held responsible criminally.

Why has the investigation taken so long, and why has it received virtually no publicity vis a vis media attention?

Any information along these lines would be appreciated.

Mark Comerford, survivor

Hi Mr. Comerford,

Your inquiry regarding the 3-1-17 Naval Weapons Industrial Reserve Plant (NWIRP or Navy)-Northrop Grumman Site in Bethpage, NY has been forwarded to me for reply. I am EPA Remedial Project Manager for the NWIRP-Northrop Grumman Site. The NWIRP-Northrop Grumman Site is a RCRA storage facility permitted under the federal Resource Conservation and Recovery Act (RCRA), although RCRA waste is no longer stored here. The New York State Department of Environmental Conservation's (NYSDEC) has the lead role in implementing the remediation at the site. Both the Navy and Northrop Grumman are potentially responsible parties (PRPs). EPA has primarily played a support role to NYSDEC.

I would like direct you to the following Navy and EPA websites for the status of remediation activities as well as investigation activities that have been conducted at the the NWIRP-Northrop Grumman Site.

https://www.navfac.navy.mil/products_and_services/ev/products_and_services/env_restoration/installation_map/navfac_atlantic/midlant/nwirp_bethpage.html

<https://www.epa.gov/hwcorrectiveactionsites/hazardous-waste-cleanup-naval-weapons-industrial-reserve-plant-and-northrop>

Should you have any further question upon visiting the above two websites, please do contact me.

Lorenzo

Sirs,

I am interested in the status of the Superfund investigation into the Grumann chemical/jet fuel contamination of their old headquarters in Bethpage, New York.

I have read that there is now an underground "plume" of contamination moving thru the aquifers advancing towards the Atlantic Ocean.

I would that ask that you would forward any current information to the below address(s).

Thank you,

Mark Comerford
